Virtual Classes

Virtual Classes modules give teachers to conduct class room sessions as per a certain time table remotely. We provide the option of tailor-made feature rich virtual Class solution from 3R Edutech at nominal cost or free virtual class solutions available from the market such as **Zoom, Google Meet** etc.

ULTIMATE WINNERS: YOUR STUDENTS

- Access well researched and tailor-made content
- Gamified learning with artificial intelligence
- Videos for quick grasp
- Learning notes/ PPTs for quick revision
- Series of self-Assessment tests which builds self-confidence & prepare students for final exam
- Doubt clarification option by teachers

Empowers teachers with prepared lesson plans that can be customized.

- Additional learning material may be provided to students like Videos/links/notes and conduct surprise tests/quizzes.
- Provide homework assignments to students and monitor responses with ease.
- Students may raise doubt which may be clarified by teachers at individual level.
- Schedule Virtual Classes/ Exams
- Monitor learning progress and performance of students assigned.

Benefits School management with administrative and monitoring capabilities

- Add / delete students at section / class level
- Assign Teachers / Class teachers at section / class level
- Monitor learning progress and performance of students at teacher / class / school level
- Access student leader board positions at section / class / school level to recognize and reward meritorious students
- All portals (Student, teacher, school administration and Examination) carry

NO INFRASTRUCTURE REQUIRED

- There is no additional infrastructure required to be put up at school level. Virtual classes can be held at school or teacher's place.
- The system is so simple and user friendly, with little orientation, school management and teachers can start off from the DAY ONE itself.
